# *Landscape Architecture* Internship

Learning through experience...

This position provides an intern with an excellent opportunity to work on several projects simultaneously in a fast-paced and technically challenging environment. The intern will gain knowledge in the establishment, construction and maintenance of national parks.

- The intern is in daily contact with mapping, data-gathering, drafting plans and concepts, as well as organizing field and research data.

- Monitors development occurring at Park boundaries, performing site assessments and general planning tasks.

- May include compilation of a Trail Management Plan with other park specialists and utilization of public forums for local input.

To Qualify:

~ *Background in Natural Science, Engineering, Urban Planning, or Landscape Architecture is preferred.*

~ *An interest in regional public design with emphasis on long-range planning and engineering is helpful.*

~ *Knowledge of land use planning laws and ordinances and common construction techniques, ADA-compliant construction, and federal land management policies.*

Work Conditions:

~ *Intern will work primarily indoors at Park Headquarters in Thousand Oaks, but will be involved in field work as well.*

~ *Intern may work full time (12 weeks), or part time (2 days per week for 6 months, or 3 days per week for four months). Interns will usually work weekdays, with some weekend work possible.*

How to Apply:

Send letter of application, resume, three references and unofficial transcript by e-mail to **sheila_braden@nps.gov** or regular mail to:

Sheila Braden, National Park Service
401 West Hillcrest Drive
